

INS. NO.	TIME/ SPEED	MILES	ALPINE	REFERENCE
Located at the confluence of the Wenatchee and Columbia Rivers, this park is at almost the exact geographic center of Washington State. The Rock Island Dam drowned the rapids that gave the Wenatchee (Winatshi) river its name.

----------	----------------	-------	--------	-----------

Browns Canyon Road is listed in the Douglas County Countywide Comprehensive Plan as a rural major collector (roads that connect highways and provide accessibility to the interior of the County) with average daily traffic of 140 vehicles. We wonder if that includes rally traffic as this section has been used in several No Alibis.
